TAC Security Sets Global Benchmark: 1,500 Clients Across 74 Countries, Achieves 3x Profit Growth in H1FY25

- TAC Security now serves clients across 74 countries, including global giants like Salesforce, Nissan Motors, and Revolut
- The company reported a 3x increase in net profit and doubled operating income in H1FY25
- Targets to achieve 3,000 customers by March 2025 and 10,000 by March 2026 to become Largest Vulnerability Management Company.

Mumbai; November 18, 2024: TAC InfoSec Limited (NSE Emerge: INE0SOY01013) (referred to hereafter as TAC Security), a global cybersecurity company specialising in vulnerability management and India's first publicly listed cybersecurity company has achieved a remarkable milestone of serving 1,500 clients across 74 countries. This achievement marks a pivotal step in its mission to dominate the global cybersecurity landscape.

Demonstrating robust financial performance, TAC Security reported a 3x surge in net profit, reaching INR 65.28 million, and a 2x increase in operating income, hitting INR 131.58 million in H1FY25. These numbers highlight the company's accelerated global expansion and its ability to attract high-profile clients across diverse geographies.

TAC Security's client roster now includes prestigious global names such as Autodesk, Salesforce, Dropbox form the United States; SoftBank Corp, Nissan Motors from Japan; Revolut from the United Kingdom; Food and Agriculture Organisation of the United Nations from Australia; and Fujifilm Business Innovation Corp from Singapore. This widespread adoption reflects the company's unmatched ability to tailor its cutting-edge cybersecurity solutions for varied industry needs.

Aligned with its vision to become the world's largest vulnerability management company, TAC Security aims to secure 3,000 clients by March 2025 and expand its reach to 10,000 clients by March 2026.

Trishneet Arora, Founder and CEO of TAC Security, said, "Reaching 1,500 clients is a testament to our team's dedication and the trust our clients place in us. TAC Security's journey exemplifies its unwavering commitment to securing digital assets against an increasingly complex threat landscape. By blending innovation, global expertise, and relentless customer focus, TAC Security is not just protecting businesses—it is shaping the future of cybersecurity."

Central to TAC Security's success is its flagship ESOF AppSec solution—a subscription-based SaaS platform for web and mobile application vulnerability scanning. Clients benefit from 100% upfront payments, ensuring seamless compliance with cybersecurity standards. This streamlined, scalable approach allows the company to efficiently expand its customer base while delivering cost-effective solutions.

As TAC Security looks ahead, it plans to upsell advanced solutions to existing clients for comprehensive cybersecurity coverage.

About TAC Security (TAC InfoSec Limited) – *Symbol - NSE: TAC*
TAC Security, a global cyber security company specialising in vulnerability management, is a publicly listed cybersecurity company that made headlines with its oversubscribed IPO worth $1 billion. TAC Security's flagship product, ESOF (Enterprise Security in One Framework), excels in cyber scoring, cyber risk quantification, and leveraging advanced AI for vulnerability assessment and penetration testing.

TAC Security holds prestigious certifications like CREST, PCI ASV, and ISO 27001 and partners with tech giants such as Google, Microsoft, and Meta for ADA's CASA (Cloud Application Security Assessment). Serving a diverse global clientele, TAC Security is committed to innovation and excellence in cyber security for Fortune 500 companies, start-ups, and Governments Globally.
