PRESS RELEASE

TAC Security Recognized in Richard Stiennon's Cyber 150 List

Mumbai, INDIA – Sep 23, 2024: TAC InfoSec Limited (NSE Emerge: INE0SOY01013) a provider of comprehensive cybersecurity solutions, is thrilled to announce its inclusion in Richard Stiennon's prestigious Cyber 150 List for 2024. This esteemed list recognizes the fastest-growing cybersecurity companies in the world, highlighting firms with between 50 and 500 employees that have demonstrated at least 15% growth in the first half of 2024.

Richard Stiennon, Chief Research Analyst at IT-Harvest, presents his picks for the top 150 cybersecurity vendors each year, focusing on companies that are making significant strides in protecting businesses from a range of cyber threats. In total, the Cyber 150 list have collectively raised \$8.3 billion in venture capital, underscoring the increasing investment and interest in cybersecurity innovations.

The largest category of participants within the Cyber 150 is in the Governance, Risk, and Compliance (GRC) space, featuring 38 vendors. In contrast, the smallest categories—email security and fraud prevention—each include only one company that has successfully grown to meet the required benchmarks in 2024. Being named among these top firms is a testament to TAC Security's dedication to safeguarding organizations and enhancing their security postures.

"We are truly honoured to be recognized in the Cyber 150 List," said Trishneet Arora, Founder, Chairman and CEO at TAC Security. "This achievement reflects our team's relentless pursuit of excellence and our commitment to delivering state-of-the-art security solutions. Our mission has always been to empower organizations to not only defend against cyber threats but to thrive in a digital-first world."

TAC Security offers a suite of services tailored to meet the unique needs of businesses across various sectors. Our solutions include vulnerability assessments, penetration testing, threat intelligence, incident response, and ongoing security monitoring. By leveraging advanced technologies and best practices, TAC Security helps clients proactively identify and mitigate risks, ensuring they are well-prepared to face the challenges of today's digital environment.

This recognition comes at a time when businesses are increasingly prioritizing cybersecurity as a critical component of their operational strategy. As organizations continue to navigate the complexities of digital transformation, TAC Security remains committed to staying ahead of emerging threats and providing innovative solutions that enhance security and resilience.

About TAC Security (TAC InfoSec Limited) – Symbol - NSE: TAC

TAC Security, a global cybersecurity company specialising in vulnerability management, is a publicly listed cybersecurity company that made headlines with its oversubscribed IPO worth \$1 billion. TAC Security's flagship product, ESOF (Enterprise Security in One Framework), excels in cyber scoring, cyber risk quantification, and leveraging advanced AI for vulnerability assessment and penetration testing.

TAC Security holds prestigious certifications like CREST, PCI ASV, and ISO 27001 and partners with tech giants such as Google, Microsoft, and Meta for ADA's CASA (Cloud Application Security Assessment). Serving a diverse global clientele, TAC Security is committed to innovation and excellence in cyber security for Fortune 500 companies, start-ups, and Governments Globally.
